

AVINASH YADAV

Full Stack Developer

+91 6388629534 avinashyadavsonu71@gmail.com [Linkedin](#) [Github](#)

CAREER SUMMARY:

Varanasi

Full Stack MERN Developer with hands-on experience in building web applications using the MERN stack. Skilled in React.js, Node.js, Express.js, MongoDB, JavaScript, and Python, with a strong understanding of REST APIs and responsive web development.

WORK EXPERIENCE:

Soul-Infotech

Full Stack Developer | Nov, 2025 – May 2026

- Developed end-to-end web application features using the MERN stack.
- Created REST APIs and integrated them with React.js frontend.
- Implemented authentication, CRUD operations, and database management using MongoDB.
- Fixed bugs, enhanced existing features, and improved application performance.
- Participated in code reviews and version control using Git and GitHub.
- Worked closely with team members to deliver features within project deadlines.

PROJECTS:

AI Workspace: [Github link](#) [Live demo](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.IO, JWT, Gemini API

- Built a collaborative workspace where multiple users can create projects and work together in real time.
- Integrated an AI assistant to help generate code, explain logic, and answer project-related queries inside the workspace.
- Added secure JWT-based authentication, project invitations, and role-based access for team members.
- Used Socket.IO to sync messages and project updates instantly across connected users.
- Designed REST APIs with Express.js and MongoDB to manage users, projects, and chat history.
- Deployed the application using Vercel (Frontend) and Render (Backend).

Grocery E-commerce App: [Github link](#) [Live demo](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Redux Toolkit, Tailwind CSS

- Developed a full-stack grocery e-commerce application with user authentication and a responsive shopping experience.
- Built features including product search, category filtering, shopping cart, wishlist, and secure checkout flow.
- Created REST APIs for product management, orders, and user accounts using Express.js and MongoDB.
- Implemented JWT authentication, protected routes, and an admin dashboard to manage products and customer orders.
- Integrated Razorpay payment gateway test mode and order management with real-time order status updates.
- Developed an admin panel to manage products, categories, inventory, customer orders, and user accounts.

TECHNICAL SKILLS:

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend & Database: Node.js, Express.js, MongoDB, Mongoose

Tools & Technologies: Git, GitHub, REST APIs, JWT, Postman, Claude Code, Prompt Engineering, AI-Tools

EDUCATION:

Bachelor of Computer Applications (BCA)

Microtek College of Management & Technology

Affiliated to Veer Bahadur Singh Purvanchal University

2022 – 2025 | CGPA: 8.16
